

PROCLAMATION

Brain Injury Awareness Month

WHEREAS: Brain Injury Awareness Month brings awareness to the effects and causes of acquired injury across Canada.

Mind Forward Brain Injury Services supports those people touched by an acquired brain injury to live their lives to their highest quality, both clients and Caregivers.

Brain Injury Awareness Month brings awareness to community members of the affects of brain injury. There are agencies across Ontario, who support people with brain injuries, giving space for personal narratives to be shared.

Various activities conducted by support agencies this month highlight the affects of brain injury on survivors and their loved ones. Often brain injury is invisible, increased awareness during this month contributes to community inclusion and social equity for those touched by a brain injury.

THEREFORE: I, Mayor Patrick Brown, on behalf of Brampton City Council, do hereby proclaim June 2021 as "Brain Injury Awareness Month" in the City of Brampton.

Mayor Patrick Brown, City of Brampton
